UNDEFEATED

Candidate is What Stuart F. Reed's Record Shows Him Really to Be.

A recent issue of the Huntington Herald-Dispatch contained the following about Stuart F. Reed:

"The man with a record unmarred by defeat"—that's Stuart F. Reed, at present secretary of state, having received, in 1912, the largest popular vote ever cast for a candidate in West Virginia, and engaged in a campaign for the nomination for Congress in the Third district. Mr. Reed is here with the Charleston delegation attending the Elk's reunion and the fall festival and will put in some good political licks if he gets a chance.

He is confident that his clean record of victories, concerning which his friends are more boastful than he, will not be marred at the primary next year and that he will be nominated and he will be just as surely elected in November.

He likes Huntington and is a great favorite here, having scores of friends within a circle not defined by party or faction.

SIXTY PINTS

Of Whiskey Are Seized at Man's Home and He is Jailed.

Accused of violating the prohibition law by selling whiskey at his home at Northview Ernest Rosano is a prisoner in the county jail awaiting a hearing or a trial before Magistrate W. E. Starcher.

Rosano was arrested and jailed Tuesday morning by Deputy Sheriff Laco Wolfe and J. H. Tenney deputy commissioner of prohibition, who seized sixty pints of Sam Thompson whiskey at his home. The whiskey was taken to the county jail to be used as evidence in the case.

A CARD OF THANKS.

We wish to thank our friends and neighbors for their kindness during the illness and death of our dear baby girl, Grace or anyone who assisted us in any way. Also for the lovely flowers.

front beyond Chalons, which reached Paris today, shows that it was the right of the German crown prince's army which was shattered in the attacks of Friday and Saturday. The crown prince's center made furious efforts to counter in the Argonne yesterday with the result that all railway lines to the east and north were engaged last night in carrying away German wounded.

French officers reckoned that the crown prince's army lost 100,000 men in this attack and the previous assaults during the summer.

The plan of the attack of this army has been the sending in masses of two divisions or about 40,000 men at a time against French works. These engagements—each one equal in importance to some of the great battles of history—have been dismissed with brief references in the French official communications because the results were only negative. Germans captured

Building Master Men

Potash, sodium, lime and iron are some of the vital mineral salts necessary to proper nourishment of the muscle, brain and nerves, but are not found in proper abundance in white bread and many other foods.

Grape-Nuts

—made from whole wheat and malted barley—richly supplies these needed mineral elements and is a delicious dish served with cream or rich milk.

Grape-Nuts food is splendid for brain workers and ideal for school children. Being partially pre-digested it is quickly absorbed by the system—going directly to the upbuilding of sinew, brain and nerves without overloading the stomach.

JOHNSON NAMED

As Deputy Grand Chancellor for Second Pythian District of the State.

Carl B. Johnson, a member of Clarksburg lodge No. 39 of the Knights of Pythias, has been commissioned district deputy grand chancellor for the Second Pythian district of the state, which comprises Harrison and four adjoining counties. The appointment was made by O. W. West, of Glenville, the newly elected grand chancellor of the West Virginia grand lodge, and is for the ensuing lodge year. Mr. Johnson succeeds William E. Starcher, of this city, who was the district deputy last year.

Mr. Johnson has for a number of years devoted much of his time to the promotion of Pythianism and his many friends together with all the Pythians of this section are pleased over his appointment and are confident that he will make good as district deputy.

tured recently testify that the resistance of the French has been as destructive as their offensive and that their artillery fire of deadly effect a year ago has now attained such intensity as to work demoralization among their opponents.

In yesterday's attack the Germans sent two divisions against the French after a preparatory bombardment. The artillery fire did not demoralize the French line which held everywhere when the German infantry charged. The two German divisions broke leaving the ground dotted with their dead.

Three times the Germans renewed their assault making the attacks with extreme courage. Each time they retired leaving more dead. Many of their wounded are still lying between the lines.

Although the attacks of the crown prince have been valiant and well organized French officers say the drive against Verdun is being transferred gradually into a defense of Metz for the French are creeping slowly and steadily closer to the Lorraine stronghold.

ENGLAND QUITE WILLING TO GIVE THEM SUPPORT

(BY ASSOCIATED PRESS)

LONDON, Sept. 28.—"If Bulgarian mobilization should result in Bulgaria assuming an aggressive attitude on the side of our enemies, we are prepared to give our friends in the Balkans all the support in our power in a manner that would be most welcome to them in concert with our allies without reserve" was the announcement made by Sir Edward Grey, the British foreign secretary, in the House of Commons Tuesday.

GERMAN STATEMENT OF WAR OPERATIONS

(BY ASSOCIATED PRESS)

BERLIN, Sept. 28.—The Germans not only have stopped the general offensive of the Allies on the western front but by counter attacks have gained considerable territory for themselves, according to today's official statement.

BRILLIANT FIGHTING BY RUSSIAN FORCES

(BY ASSOCIATED PRESS)

PETROGRAD, Sept. 28.—The general impression caused by the latest reports from this front is that the Russians are fighting brilliantly, steadily and confidently and that their supplies of ammunition are being delivered in adequate quantities while the Germans apparently lack the force to execute their sweeping plans. The authorities here direct attention to certain details in the report as indicating that the German efforts are becoming spasmodic.

Heat is the soul of a house!

Quick-coming Winter is to be a dread or a delight—depends upon whether you "put-it-off-again" or adopt ideal heating. Old-fashioned heating causes more worry and arguing than any single factor of the home. Why therefore vex through another seven months of weak and wasteful old-time heating? Why be at the mercy of the weather, with shut-off rooms, drafty floors, frigid halls and bays? A house is changed into a home, a soul is put into the dwelling by the flood of mellow warmth *guaranteed* to you *only* by the use of

Don't again bring out the old heater and make the elements chortle!

AMERICAN & IDEAL RADIATORS & BOILERS

have invariably proved more economical than the heaters they replaced—often reducing the fuel-bills one half, besides the far greater ease in operation, absence of repair bills, vastly greater household cleanliness and avoidance of fire risks.

A No. 2115 IDEAL Boiler and 270 sq. ft. of 38-in. AMERICAN Radiators, costing the owner \$140, were used to heat this cottage. At this price the goods can be bought of any reputable, competent fitter. This did not include cost of labor, pipes, valves, freight, etc., which are extremely low according to climate and other conditions.

That is why IDEAL-AMERICAN outfits are an *investment*, not an expense. You must know they bring 10 to 15% higher rental, or property sells quicker at price to fully cover cost.

It should be understood that the name IDEAL applies to a group of Boilers—changed in form to suit exactly the perfect burning of different kinds and grades of hard and soft coal, (screenings, pea, buckwheat, etc.) coke, lignite, wood, oil, gas, etc. Hence it is not to our interest to urge the sale of an "all around" or "straddle" Boiler which may or may not do the work, but rather to assist the building owner to select the type and size of IDEAL Boiler which will give him complete satisfaction and be best adapted to burn the fuel most cheaply available in his locality. And to burn the least amount of it, and with least care-taking!

Don't this Fall set up again the old stove, but put in an IDEAL-AMERICAN outfit and enjoy winters of solid heating comfort and reliable ventilation, every room and corner "warm as toast" without heater dirt or drudgery to ruin the housewife's disposition and the household furnishings. Call up your dealer and ask for estimate. Ask for book (free): "Ideal Heating"—full of big facts you ought to know. Does not obligate you in the least to buy. Put the soul of genial, vital-giving radiator warmth into your country or city cottage by looking us up today.

IDEAL Boilers are safer and easier to run than stoves. Accept no substitutes.
